

2008 flood recovery program

repairing homes,
restoring hope.

**The storms have subsided,
but not the devastation.**

Help is here for Southern Wisconsin.

The federal government has recently awarded funds to Wisconsin to help meet the needs of people affected by the terrible floods and storms that occurred during the summer of 2008 in a 30-county* area. These funds will help homeowners repair their homes and provide other resources to help them on their road to recovery.

These funds are restricted by the federal government for use only in disaster areas declared in 2008.
